Applicant:	Matthew J. Searle	PATENT APPLICATION
Serial No.:		Group Art Unit:
Filed:	Herewith	Examiner:
For:	Improvements in or relating to the heating of products	

Preliminary Amendment

Hon. Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

Prior to examination of the above application, please amend the application as follows:

In the claims:

Please cancel, without prejudice or disclaimer, Claims 1 to 43 of the claims as published with the International Application of which this application comprises the US National Phase application, and add new claims 44 to 63 as indicated below. New Claims 44, 53 and 60 are independent.

1 through 43. (Cancelled)

44. (New) A portable apparatus for heating consumable food product of the type comprising an outer wrapper and a filling, the apparatus comprising:
a support configured and arranged to support a foodstuff;
a vapor injection nozzle arranged to penetrate the filling of the foodstuff
when the foodstuff is arranged for heating on the support, and
a heater unit that is user activatable to enable chemical reagents separately
contained within the heater unit to contact one another and react to generate a hot
vapor for heating the foodstuff;
